

## C210 Portable Desktop Fingerprint Clocking System

Our portable desktop clocking system provides detailed, accurate time and attendance data for your business. The C210 utilises biometric security for fool proof fingerprint clocking with the added convenience of wireless connectivity. The terminal has a micro-USB input and can be powered via a portable charger, phone charger, laptop or PC. An inbuilt 8-hour backup battery makes the C210 truly portable.

### Clocking Methods

*Fingerprint clocking* is quick, easy, and fully secure. Staff register attendance by placing their enrolled finger on the C210's fingerprint scanner, where an audio and visual message confirms the clocking.

### Registration & Recording

Fingerprint registration is extremely quick and simple. Multiple biometric records can be registered for each employee to guard against accidents or damage to a specific fingerprint, and the C210 has the capacity for up to 50 staff.

### Data Storage & Download

Clocking data is stored on the C210 terminal until downloaded via WiFi or USB into the ClockRite timesheet software. Here individual timesheets can be calculated and detailed reports are available to manage attendance and payroll data. Once downloaded, all data is stored securely on your PC or server.

### ClockRite Software

The C210 clocking system incorporates our in-house ClockRite Software suite to provide an intuitive and versatile time and attendance management solution for your business. Basic and overtime hours are calculated automatically according to your specific shift patterns, while late starts, early finishes, grace and roundings can be managed and defined at the click of a button. Holidays and absence are recorded in detail for individual employees, and comprehensive reports make payroll preparation quick and easy.

## Features:

- 2.8" Colour LCD screen with clear interface for ease of use
- All directional optical fingerprint sensor
- 1 touch a-second user recognition
- Stores 800 templates and 50,000 transactions
- Reads Fingerprint and/or PINs
- Built-in wireless connectivity
- Built-in USB port for backup download
- Multi-language support
- Audio-visual feedback for attendance events
- Micro USB input for convenient power supply

## Specifications:

- Transaction Capacity: 50,000
- Sensor: Optical Sensor
- Communication: Wireless 2.4ghz, USB-client
- Display: 2.8" LCD screen
- Power Supply: 5V DC 2A via micro USB (2A minimum)
- Operating Temperature: 0 - 45 C
- Operating Humidity: 20% - 80%
- Dimensions (mm):
  - Height: 84
  - Width: 170
  - Depth: 84

## C210 Package:

- C210 Portable Desktop Fingerprint Clocking Terminal
- ClockRite PC Time & Attendance Software
- Detailed Online Setup and Usage Guides
- 12 Months Remote Support
- Sage Payroll Link
- Free UK Mainland Delivery
